CHOSEN PROJECTS

Mr. Pancake

Mr. Pancake is an original restaurant-themed web application. It is the restaurant's website and also an online store where you can browse the products offered, learn about the history of its establishment, obtain the company's contact information, share your opinion, check the opening hours, location of the company, and browse and order products with home delivery.

The application contains:

- login and user registration system,
- function of adding products to the cart,
- support for multiple screen widths (RWD),
- Angular integration with the Firebase platform from which these are downloaded
- data such as user information or product database
