- ✓ Knowledge and ability to work with Sass preprocessor,
- ✓ Ability to build applications by using js and css (without frameworks)
- ✓ Performing tests (unit and integral) with use of the Jest library,
- ✓ Also knowledge of using backend technology (databases – MongoDB & MySQL, REST API, PHP)

## CHOSEN PROJECTS

### **Cookie Landing Page**

It's a single-page website created in dedication to the „Cookie Diet Tracker App”. The project includes presentation of the app, „About us” section, dynamically changing comments and contact panel.

### **Cookie Diet Tracker App**

This app is designed to help you keep track of your caloric intake. Thanks to it, you can control not only the caloric content of your meals, but also the content of protein, fat and carbohydrates in your meals. Thanks to the weekly schedule used, you can dynamically plan your menu and check your history of eaten meals.

## PROFILE (about me)

I am a 3rd year student and for about 2 years I have been creating in web technology. My main goal is to gain knowledge and experience in web development. I really appreciate good atmosphere and pleasant relations with the team. If you are interested in my person, you can check out my portfolio.

I agree to the processing of personal data provided in this document for realising the recruitment process pursuant to the Personal Data Protection Act of 10 May 2018 (Journal of Laws 2018, item 1000) and in agreement with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation).
